OBJECTIVE

My goal is to work as a Junior Backend Developer, contributing to the development and evolution of solutions using Java or C#. I have solid experience in Frontend development and now aim to focus my professional growth on backend technologies, especially APIs, integrations, software architecture, and best practices, generating real impact for both products and teams.

ABOUT ME

I hold a degree in Systems Analysis and Development from FIAP and have been working as a Junior Software Developer at MRM McCann Worldgroup since June 2024. I have experience in full stack projects, collaborating within agile teams focused on delivering value and technical quality.

I also hold an Advanced English certification from Wizard by Pearson, which supports my communication and collaboration in international projects. I am highly motivated by continuous learning and the pursuit of innovative solutions.

HARD SKILLS

- **Frontend:** HTML, CSS (SCSS, Tailwind CSS), JavaScript, TypeScript, React, Next.js, React Native
- **Backend:** Java, Python, SQL, C#, Strapi
- **Cloud:** AWS, Azure
- **Tools:** Git, GitHub, Bitbucket, Jira, Trello, Microsoft Office (Excel, PowerPoint, Word)

SOFT SKILLS

- Effective communication

- Teamwork
- Proactivity
- Resilience
- Organization

EDUCATION

FIAP — São Paulo, Brazil

Associate Degree in Systems Analysis and Development
02/2024 — 12/2025

FIAP — São Paulo, Brazil

Postgraduate Program in Java Architecture and Development
03/2026 — 01/2027

Wizard by Pearson — São Paulo, Brazil

English as a Second Language Course
01/2017 — 12/2022 (Completed)

ACADEMIC EXPERIENCE

EcoSmart Project (Global Solution – FIAP)

Technologies: Next.js, Tailwind CSS, TypeScript

Developed a platform that simulates savings generated through solar energy while also demonstrating positive environmental impact. The system calculates personalized estimates based on the user's energy consumption and location.

🔗 https://global-solution-s2.vercel.app/

OceanGuard Project (Global Solution – FIAP)

Technologies: React, TypeScript

Contributed to the development of a real-time water quality monitoring device focused on preserving marine life. The project monitored temperature, pH levels, and water levels.

PROFESSIONAL EXPERIENCE

MRM McCann Worldgroup — São Paulo, Brazil

Junior Software Developer
06/2024 — Present

- Developed responsive interfaces using React, Next.js, and TypeScript.
- Worked within agile squads using Scrum methodologies and tools such as Jira and Bitbucket.
- Implemented scalable and optimized solutions for digital marketing campaigns and landing pages.
- Contributed to a digital project for PRODESP using Adobe technologies (Adobe Experience Manager and Adobe ecosystem).

Projects delivered for: General Motors, Mastercard, Leroy Merlin, Diageo, LATAM Airlines, Sanofi, and PRODESP.

Dealer 4.0 Project

Technologies: HTML, CSS, SCSS, JavaScript

Developed this project alongside my team at MRM McCann Worldgroup for a General Motors dealership event. The application was designed specifically for TV screen proportions, as it was used onsite during the event, allowing visitors to interact through touchscreens in an intuitive and immersive experience.

Personal Developer Portfolio

Technologies: Next.js, Tailwind CSS, TypeScript

Designed and published my personal developer portfolio website. The goal was to create a space that represents my professional identity while providing an intuitive and enjoyable user experience.
