About

Software Engineer with 2+ years of experience building enterprise digital products for globally recognized brands such as GM, Mastercard, Leroy Merlin, LATAM Airlines, and Diageo.

Currently at MRM McCann Worldgroup developing high-performance web interfaces with React, Next.js, and TypeScript, while expanding into backend architecture with Java, Spring Boot, and Docker. Contributed to real-scale projects, including an interactive vehicle configurator for GM dealerships and a government-scale platform for PRODESP using Adobe Experience Manager.

Currently completing a Postgraduate degree in Java Architecture & Development at FIAP (Pós-Tech), deepening knowledge in distributed systems and software engineering best practices.

Experience

Junior Software Engineer 03/2025 — Present
MRM Brasil · São Paulo, SP

- Developed responsive, high-performance interfaces using React, Next.js, and TypeScript for digital campaigns and platforms serving global brands (GM, Mastercard, Leroy Merlin, LATAM Airlines, Diageo).
- Currently developing Lens Analytics, an internal analytics platform built with Next.js 15, TypeScript, and MySQL, integrating AWS Bedrock (Claude AI) to enable natural language querying over marketing campaign data — replacing manual reporting processes for clients such as Leroy Merlin.
- Led front-end development of Dealer 4.0, an interactive vehicle configurator for the Blazer EV RS deployed at GM dealership events — built for TV-scale touchscreens, enabling full car customization, financing simulation, and 3D visualization in real time.
- Contributed to a large-scale government digital platform (PRODESP) using Adobe Experience Manager, delivering a CMS-driven system for enterprise content management.
- Worked within cross-functional agile squads using Scrum, Jira, and Bitbucket, consistently delivering solutions on tight campaign timelines.
- Implemented scalable front-end architecture across 7+ brand campaigns, supporting marketing digital experiences for millions of end users.

Frontend Development Intern 06/2024 — 02/2026
MRM Brasil · Vila Madalena, São Paulo

- Developed and deployed HTML email marketing campaigns and interactive landing pages via Salesforce Marketing Cloud (SFMC) and CloudPages for major brands and large-scale events across Brazil.
- Created and published email campaigns for Diageo's premium portfolio — Johnnie Walker, Smirnoff, Tanqueray, and The Bar — covering product launches, seasonal promotions, and CRM flows.
- Delivered digital campaign assets for iconic music events such as The Town, Lollapalooza Brasil, and Rock in Rio, reaching audiences of millions.
- Developed email marketing campaigns for global brands including Mastercard, Bayern Munich, and Leroy Merlin, ensuring cross-client rendering compatibility across Outlook, Gmail, and Apple Mail.
- Implemented CloudPages logic and AMPscript on SFMC for personalized, data-driven experiences across multiple brands simultaneously.

Soft Skills

Resilience · Organization · Accountability · Fast Learning · Problem Solving · Teamwork · Communication · Leadership · Adaptability

Hard Skills

Backend: Java, Spring Boot e Node.js, REST APIs, Microservices, JUnit

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML, CSS, SCSS, Tailwind CSS

Cloud & DevOps: Azure, AWS (Bedrock, Lambda, EC2, S3, API Gateway), Docker, Git e GitHub

Banco de Dados: SQL, PostgreSQL e MySQL

AI & Generative AI: AWS Bedrock, Claude API, LangChain, RAG, Prompt Engineering

Architecture & Practices: Microservices, REST, Agile/Scrum, Design Patterns

Education

Postgraduate Degree — Java Architecture & Development 01/2026 — Present

FIAP - Faculdade de Informática e Administração Paulista · São Paulo, SP

Associate Degree — Systems Analysis and Development 01/2024 — 12/2025

FIAP - Faculdade de Informática e Administração Paulista · São Paulo, SP

English as a Second Language 01/2017 — 12/2022

Wizard By Person · São Paulo, SP

Projects

Portifólio Dev Link: joaosilvadev.vercel.app

React, Next.js, TypeScript, Tailwind CSS

Built with Next.js and React, the portfolio features an AI-powered chatbot via the Claude API (Anthropic) that answers recruiters' questions conversationally and contextually, with prompt injection protection and rate limiting. Animated interface, bilingual content (PT/EN), and continuous deployment on Vercel.

EcoSmart Link: https://global-solution-s2.vercel.app/

React, Next.js, TypeScript, Tailwind CSS

Web platform that allows users to input their average electricity consumption and location to calculate a personalized estimate of savings from solar panel installation.

Bank System Github: https://github.com/joaosilvaz/bank-project

Java, Spring Boot

Banking system enabling account creation, balance inquiry, deposits, withdrawals, and PIX transfers. Uses enums for account types (CHECKING, SAVINGS, SALARY) and account status (ACTIVE, INACTIVE).

Plataforma Digital Governamental — PRODESP MRM Brasil

Adobe Experience Manager (AEM), Java, React

Contributed to the development of a large-scale digital platform for PRODESP, the technology company of the São Paulo State Government. Delivered an enterprise CMS system that modernized digital content management for one of Brazil's largest public IT institutions.

Lens Analytics MRM Brasil

React, Next.js, TypeScript, TailwindCSS, AWS Bedrock, MySQL

Currently developing Lens Analytics, an internal analytics platform built with Next.js 15, TypeScript, and MySQL, integrating AWS Bedrock (Claude AI) to enable natural language querying over marketing campaign data — eliminating manual reporting processes that previously required hours of weekly work, delivering insights in seconds for clients like Leroy Merlin.
